

SUSTAINABILITY GOALS

A woman with her hair in a ponytail is carrying a young girl with two braids on her back. They are both looking out over a landscape with several wind turbines under a bright, hazy sky, likely at sunset or sunrise. The woman is wearing a white shirt, and the girl is wearing a light pink dress. The scene is bathed in warm, golden light.

Koma Karanth Foundation, understands the value of the UN SDG's and as such, have based our mission and vision on 7 of their 17 goals, with our focus being on the eradication of poverty, that no child or family should go to bed hungry, basic human rights to clean water and sanitation, in an environment that provides good health and well being , quality education to support mental and social growth, recognising diversity and inclusion, ensuring equal opportunities for all, in particular children, woman, the elderly and the disabled and providing affordable, clean energy for these environments that we are building.

KOMA KARANTH FOUNDATION LIMITED supports the following UN Sustainability Goals

We understand the value of the UN SDG's and as such, have based our mission and vision on 7 of these 17 goals

- We support poor families, the elderly, single mothers & small business entrepreneurs, with a means of supporting themselves and eradicating poverty with the family and community.
- To build homes, schools and community centres for the poor, elderly and single mothers and families to enable self sufficiency

- We work towards eradicating hunger by supporting those who cannot support themselves, through feeding schemes
- We support single mothers and families, empowering them to provide their own food, by setting up home businesses for them or encouraging them to set up a means to support themselves

- We provide medical support to the poor, elderly, single mothers and their families

- We provide education & schools for the poor, enabling them to lift themselves out of poverty through education and personal development
- We provide training in basic skills and handy crafts
- We built an old age community centre next to our school to encourage cross generational learning and sharing
- We provide computers

- We support and empower woman in our community so that they may thrive and develop themselves

- By providing the community with life-skills, we aid and empower them to acquire better employment opportunities or to become self-employed thereby supporting the growth of the community and local economy

- Where possible, we aim to provide solar power to our homes
- We provide solar street-lamps to a community
- We aim to provide solar power to our upcoming Koma Community
